

Station 1

Cells

Investigation

1. Make observations of each cell.
2. Determine if the cell is a plant or animal cell.
3. Provide identifying features that helped you identify the cell.

Station 2

Read Works

Article

1. Read the article. DO NOT mark on the article.
2. Answer the questions in your packet. Make sure to answer in complete sentences.

Station 3

Matching

Directions

- 1. Do not use any notes to help you!!**
2. Match the parts to **both** the animal and plant cells.
3. Raise your hand for Ms. Hawks to verify your answers.
4. Label the diagrams on your station paper.

Station 4

Matching and Cell Job Application Directions:

Part 1:

Match the organelle to its function then call Ms. Hawks to sign off on your station paper.

Part 2:

Read the Job announcement & complete the job application.

Station 5

Instaganelles

Directions:

1. For each organelle (you will choose 4), first draw a profile picture in the small circle next to the organelle's Instagram name.
2. Create a name for the organelle's account and write it in the space next to the profile picture.
3. Draw the "selfie" photo that the organelle posted on Instagram. This should be a sketch that looks like the organelle, but it can be cartoonish or personified.
4. Write a caption for the picture. The caption should include a description of the function of the organelle. In your caption, you must use at least one #hashtag and one emoji

Station 6

The Cell Theory

Article Directions
