## CHECKS INVESTIGATION

### Step 1

Original Hypothesis #1:

### Step 2

Tentative Hypothesis # 2:

### Step 3

Tentative Hypothesis # 3:

### Step 4

Final Hypothesis:

### Analysis Questions: (write in complete sentences)

1. What bits of information on the checks were valuable to your group in formulating a hypothesis?
2. What information was useless?
3. List any misleading information that was presented.
4. Why do we say that a hypothesis in science is "tentative?"
5. Is your final hypothesis "correct"? Explain.
