

Water Cycle One-Pager

Let's review the water cycle! As a way to refresh your memory, your task is to create a one-pager based on the Discovery Education article that was given in class. Below is a check list of what should be included on the one-pager. Once complete, a classmate will check your work.

Criteria	Self Check	Peer Check
<input type="checkbox"/> Drawing (in color) representing process of the water cycle		
<input type="checkbox"/> Definition of evaporation		
<input type="checkbox"/> Definition of transpiration		
<input type="checkbox"/> Definition of condensation & where it occurs		
<input type="checkbox"/> What is needed for condensation to happen?		
<input type="checkbox"/> Definition of precipitation		
<input type="checkbox"/> Conditions that result in rain/snow		
<input type="checkbox"/> Definition of collection/runoff		
<input type="checkbox"/> Terms infiltrate/groundwater included		
<input type="checkbox"/> Arrows included represent flow of cycle
